Education

Certificate, Full Stack Flex Coding – Ohio State University

Columbus, OH

A 24-week intensive program focused on gaining skills in full stack web development.

Bachelor of Science, Computer Science – Kent State University

Kent, OH

Completed 73 / 120 credits.

Projects

U-Hub | <https://github.com/averyjmiller/u-hub>

Workflow Manager and Co-Developer

- Developed a browser application using HTML, CSS, and JavaScript that takes user input to display the weather forecast, the headlining news articles, and the important tasks that the user needs to accomplish for the day.
- Performed proper Git Workflow methods to accomplish teamwork in a consistent and productive manner.
- Utilized web application programming interfaces to fetch and tailor data in order to display relevant information.
- Implemented responsive design techniques to ensure that the website displayed and functioned correctly on a variety of screen sizes.

SVG Logo Maker | <https://github.com/averyjmiller/svg-logo-maker>

Developer

- Developed a Node.js command-line application that takes in user input to generate a logo and save it as an SVG file.
- Utilized object-oriented programming to implement a well-structured back-end that follows best practices and performs efficiently.
- Implemented a sufficient number of JavaScript test cases using Jest to ensure that the codebase was performing correctly.

Code Quiz | <https://github.com/averyjmiller/code-quiz>

Developer

- Developed a browser application using HTML, CSS, and JavaScript that prompts users with questions to test their coding knowledge.
- Implemented a timer that featured a penalty for incorrectly answered questions, resulting in a more challenging but rewarding user experience.
- Effectively uses local storage to save and display user scores at the end of the quiz.

Work Experience

Minico's Italian Restaurant

December 2021 - Current

Lead Server

Westerville, OH

- Prioritize multiple customers in a fast-paced environment to promptly deliver a pleasant experience resulting in a large number of customers who regularly revisit the restaurant.
- Onboard new servers to follow proper protocols and best practices to ensure a safe and efficient work environment.
- Communicate with management on low front-of-house supplies to maintain a continuously stocked inventory.

Minico's Italian Restaurant

August 2017 - June 2019

Host/Busser

Westerville, OH

- Greeted guests and guided them to an available table in a quick and warm manner to provide them with a pleasant first impression.
- Organized and maintained the rotation of the server seating schedule to ensure that each server was fairly allotted tables.
